

MEASURE YOUR FOOT FOR THE PERFECT SIZE.

Follow the simple steps below to help you choose the correct size.

- 1 Print these two A4 sheets (check the scale is correct by placing a credit card on the outline below).
- 2 Cut along the lines.
- 3 Fold the paper at the back of the foot, along the dotted line.
- 4 Assemble to form the two circles, A and B.
- 5 Put the folded part against the wall and stand on the template, as shown. Wear a sock that you would normally wear with your boot.
- 6 Draw a line at the longest point of your foot
- 7 Refer to the size chart. You should order the next size up from your foot measurement.

IMPORTANT NOTICE:

1. The measurement will be more accurate if you are standing up straight, so we recommend asking someone to help by tracing the line.
2. The measurement shown is to the inside length of the boots. If you intend to wear thick socks, please wear them whilst measuring.
